

What to Expect During Your Visit at the VA

If you are experiencing COVID-19 symptoms, please call (505)265-1711 (press #6) before your visit.

Universal Masking

All Veterans, staff, and visitors are required to wear a mask while on campus. If you can't wear a mask, your visit will be rescheduled or changed to a telephone/video visit.

Physical Distancing

Please maintain physical distancing while on campus. We will have some seating blocked off and floor decals to help.

Arrival on Campus

Please enter through the **San Pedro Drive SE** gate. You will be asked questions about any symptoms you are currently experiencing. If needed, you may have additional screening before entering campus. The clinical staff will repeat these questions during your check-in.

Thank you in advance for your patience as this is for everyone's safety.

***Please do not arrive more than 15 minutes before your appointment.**

Parking

Please park in any designated patient parking area. There are no new parking restrictions.

Limited Visitation

We have a limited visitor policy in effect. If you need to have someone accompany you to your visit, please limit to one person over the age of 18.

Safe Care is Our Mission
